

Machine Operator

Netafim USA is the largest subsidiary of the global irrigation, agronomy, and automation leader Netafim Ltd. Our business purpose is to “Help the world grow more with less”. The world’s need for food is growing quickly and yet our global resources are limited. Netafim provides agricultural solutions that enable the world to grow more food, using less water, in a more sustainable way. We are a purpose driven company that was founded by farmers, for farmers. As a subsidiary of a global company our people come from all over the world. They share values such as mutual cooperation, loyalty, dedication, and team support. Our employees work closely with our customers and are committed to providing quality service to everyone we interact and do business with. Our US headquarters and manufacturing facilities are located in Fresno, CA. We employ approximately 270 team members throughout the US and over 5,000 team members globally. You can learn more about our company and the Netafim experience at the following link <https://youtu.be/1Uz1qnHCkmM>

SUMMARY

The Machine Operator (MO) attends the extrusion production lines, TWD rewind lines, and landscape recoil lines. The MO removes finished products from the line, collects On Line QC (OLQC) samples, process the packaging of the finished products, and stack them according to production Work Orders (WO). During idle time, the MO will keep the working environment clean and safe following the production department’s code SAFETY, QUALITY, PRODUCTION in this order.
