INTRODUCTION

Netafim™ comprehensive range of dripperlines / pipes connectors is made of highly resistant durable polymers. They are functional and viable, modeled under the highest market standards and available for all dripperlines / pipes types. Use the catalog to select the right line for your application: Barb connectors, Fast Ring connectors, Twist Lock connectors and a vast family of start and reducing connectors.

Note: the illustrations in this catalog are not to scale.

BARB CONNECTORS

APPLICATIONS

In HWD 0.9 - 1.5mm

BENEFITS

- Relatively easy to install
- UV resistant
- Durable one-piece construction

FAST RING CONNECTORS

APPLICATIONS

In TWD & MWD between 0.135 mm (4.5 mil) and 0.8 mm (32 mil)

BENEFITS

- Highly reliable connector
- Very easy to handle
- In certain models the connector is supplied in one piece (with rings assembled)
- Easily released from the pipe when required
- UV resistant

TWIST LOCK CONNECTORS

APPLICATIONS

In TWD and MWD between 0.135 mm (4.5 mil) and 0.8 mm (32 mil)

BENEFITS

- An extremely reliable connector (fastened by a nut)
- Easily opened (when required)
- Extremely long - when SDI is used and a dripperline happens to crack/ blow up needing cut off and repair, it will be relatively easy to connect both ends of the pipe using this connector.

Q-FLEX™

UNIQUE KINK RESISTANCE FLEXIBLE RISER

Applications

INNOVATIVE & FLEXIBLE SOLUTION TO CONNECT DRIPPERLINES TO SUB MAINS

- Q-Flex™ is Netafim's innovative and unique solution for dripperline riser take-offs.
- Suits both Surface and Sub-Surface applications.

BENEFITS AND FEATURES

- Saves labor, simplifies and shortens the installation process.
- Prevent local pressure losses or flow restriction, kink-resistant.
- Verstaile pre assembled options for Thin wall, Medium wall and Heavy wall dripperlines.
- Configurable for diverse connectors options, customizable for connecting dripperlines to grommet take-offs or threaded connections in sub mains.

Specifications

- Kink-resistant corrugated profile.
- Made from UV resistance corrugated Polypropylene.
- Maximum pressure: 4 bar (0-40°C).
- Elongation <3% at 4 bar.
- Minimum kink radius (with buckling): 45 mm.
